**THE ASSOCIATION OF PRIVATE ENTERPRISE EDUCATION  
PURPOSE, MISSION, AND IMPLEMENTATION**

---

The Association of Private Enterprise Education was created in 1978 by educators, many of whom held university Chairs of Private Enterprise, and business people committed to furthering economic understanding. An informal network of such individuals existed for several years before 1978. Increasing interest by colleges and universities in private enterprise programs and a desire to expand their reach and increase their effectiveness led to the creation of the Association.

The Association of Private Enterprise Education believes that individual knowledge and understanding of a society based on freedom in enterprise and personal life can provide an environment in which people can fulfill their greatest potential. The Association acts as a network. Its members gain information, interaction, and support in their efforts to put into action an accurate and objective understanding of private enterprise systems.

The purposes of the Association of Private Enterprise Education are to:

1. Promulgate an accurate and objective understanding of America's business system in its many aspects and its various components;
2. Act as an information exchange among those involved with private enterprise education, particularly in relation to research, teaching methods, curricula, and sources of funding;
3. Advance teaching of and research in the American system of private enterprise;
4. Act as an interface to enhance communication between the university community and private enterprise as complementary and mutually supportive resources;
5. Encourage the creation of college and university programs on private enterprise education and to assist in making programs more effective;
6. Encourage and offer assistance to businessmen who may serve as visiting lecturers on college campuses; and
7. Encourage dialogue with representatives of other economic systems across the world.

The purposes of the Association are complemented by the following:

College and University Chairs and Centers • The Association has been instrumental in establishing Chairs and Centers of Private Enterprise in colleges and universities, which in turn develop courses and programs reaching tens of thousands of students each year. Some of these programs make scholarships available to advance study and research of private enterprise. We stand ready to help any school or community start programs which build economic understanding.

Writing • Association members write hundreds of articles and dozens of books each year for business, scholarly, and general audiences.

Publications • Newsletters, brochures, monographs, and books, even posters and bumper stickers, are published by the Association and its members.

Radio, Television, Films • Members make scores of appearances each year on talk shows, news programs, and documentaries. One member institution prepared study materials accompanying Milton Friedman's "Free to Choose" series on PBS.

National Forums • Members sponsor national forums on critical issues in private enterprise and then publish their proceedings as books. Subjects have included "Business and the Media;" "The Philosophy of Private Enterprise;" "The New Politics of Private Enterprise;" "Productivity and Innovation;" and many more.

Teaching Teachers • Members' programs that teach teachers economic theory and how it can be taught reach thousands of teachers and millions of students each year. Many members have created extensive resource banks of books, periodicals, games, and audio/visual materials for the use of teachers.

Employee Economic Understanding • Members go into factories, warehouses, and offices to provide economic education for blue- and white-collar employees in union and non-union facilities. Publications and materials are developed for employee economic education programs. Hundreds of thousands of employees are reached each year in this manner.

Professional Economic Education • Members develop special programs for professional audiences – such as physicians, clergy, lawyers, and journalists – to improve their economic understanding and enable them to more effectively carry out their roles as community opinion leaders.

Entrepreneurial Programs • Members work with entrepreneurs, helping them to start businesses and keep them going. Two members have worked with entire communities to help make private enterprise work for their towns. Other members develop and teach entrepreneurship courses in colleges and universities.

Governmental Action • Members serve in advisory capacities to governmental bodies dealing with economic policy, taxation, and other issues on national, state, and local levels.

Speaking • Association members make over 2,000 speeches a year to audiences totaling hundreds of thousands.

Collectively, the Association of Private Enterprise Education and its members reach literally millions of people each year from all walks of life, providing the means by which to see the invisible hand.

The mission of the Association of Private Enterprise Education is to put into action accurate and objective understandings of private enterprise. Further, the Association and its members are committed to a future of innovation, productivity, and an ever improving standard of living for all people, as well as maintaining the kind of dynamic environment which permits change and growth.
